Support our International Donation Campaign!

Donate and collect donations for the 3rd International Automotive Workers' Conference November 20-24, 2025, in Pune, India!

(Adopted by 10th ICOG-Online-Meeting on March 30, 2025)

The 3rd International Automotive Workers' Conference will take place in Pune, India.

After Germany (2015) and South Africa (2020), the world congress of active and militant automotive workers and their families is now being held in India.

It is very important that proletarian internationalism is strengthened in view of the worldwide intensification of the contradictions between the imperialist power blocs with far-reaching consequences for humanity such as environmental destruction, war and fascist governments.

This means that we international automotive workers will not allow ourselves to be driven into competition and played off against each other. We are strengthening international solidarity, cooperation and coordination of struggles towards common struggles for common demands. Hundreds of automotive workers will come together to discuss, argue and celebrate.

However, our conference will again cost a lot of money. We are also supporting automotive workers' delegations from countries with very low wage levels. We are therefore calling on all colleagues who show solidarity to support this conference with a financial donation! Our goal is 50,000 euros worldwide.

Every euro will strengthen unification of International Automotive Workers!

- we all work for free, by conviction only

- the International Automotive Workers Conference is financially independent and works above party lines; we are firmly committed to the interests of workers and employees worldwide!

International issues must be discussed internationally at eye level - this is how we create the basis for a common struggle for a world without exploitation and oppression!

We are happy to accept donations in person or at one of our donation galas

or directly to the **Donation account of the International Coordinating Group (ICOG):**
