

Dear Friends,

We would like to cordially invite you to the next webinar organized by the United Front in preparation for the International Workers' Day, May 1, titled: "Out on May 1! Against the warmongers of the U.S. and Israel, against all imperialists and exploiters!" The webinar will take place on Sunday, April 26, 2026, at 2:00 p.m. CET.

We are, of course, looking forward to participants and introductory remarks from all over the world, especially from the workplaces. Everyone is welcome to speak about their assessments, but also about practical preparations! Please sign up for introductory remarks (3 minutes) and contributions to the open discussion (2 minutes). To allow interpreters time to prepare and to process the materials before May 1, we would like to receive them by Monday, April 20, this time.

Date and time in your country:

This year, May 1 presents special challenges for the working class and the masses of the world in the struggle against fascism, war, environmental destruction, as well as intensified exploitation, wage cuts, and the erosion of hard-won rights such as workplace safety. With the brutal aggression of the U.S. and Israel against Iran, they have sparked a conflagration that could spread even further across the globe. At the same time, this is just one of numerous wars and flashpoints around the world. We would love to hear your assessment of this global situation and the situation of workers! This is certainly controversial, especially regarding the assessment of Iran. But as always, we will discuss openly, passionately, and in solidarity.

Remarkable struggles around the globe are directed against imperialist/capitalist policies—we want to hear about all of that, too! Whether it's February 6 with the transnational day of struggle in the ports, 230 million people in India on general strike, or 3,300 "No kings—no fascism" demonstrations in the U.S.—all of this points the way forward!

We're also closely linking the webinar to practical action: how are you preparing for May 1st in your countries?

Let's remember the embarrassing incident last year when, of all things, the May 1st webinar was the least attended of the entire year! Let's not let that happen again! Let's make it a real bang this year, mobilize widely, and then take to the streets on May 1st, stronger than ever!

Militant greetings,

Monika Gärtner-Engel and Edithluz Castro
